Subject: Africa trip

Hi Kirsten and Woutrina,

I just spoke with Jonna about the trip I'm going on next week. Jonna asked me to give you a little background so you're aware in case the mission asks. I apologize, but I've been asked to keep the specific itinerary details confidential, but essentially I'm joining a policy group going to Rwanda and Ethiopia to learn about US investments across a range of fields. I'm going as a subject matter expert for infectious diseases. I assume the embassy in both countries is aware of the trip for security purposes, but as far as I know, we're not scheduled to meet with USAID mission contacts nor any PREDICT-related ministry contacts.

Hopefully that's at least a little helpful :)

Cheers,
Jon
